=

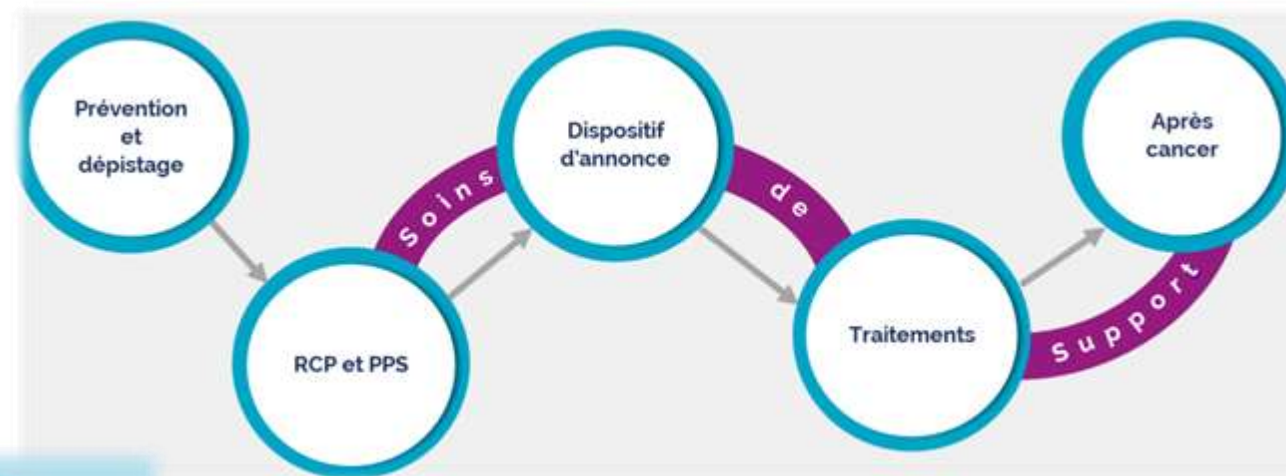

centre organisé (CCC/CC) ,  
intégral & intégré

1

2

3

1. Une approche holistique
2. Une évaluation par les pairs, pas un audit technique
3. Une démarche volontaire
4. Un outil d'amélioration, pas un contrôle
5. Un programme qui se nourrit lui même (bonnes pratiques)
6. Un programme évolutif
7. Un programme structurant

Bref: l'OEI est une communauté dynamique permettant à chaque centre de s'améliorer, de se développer et d'apprendre les uns des autres.

**Evaluating comprehensive cancer networks; a review of standards and evaluation methods for care networks to inform a comparison with the OECD comprehensive cancer network standards →**

→ **READ MORE**

## Principes OEI d'un réseau intégré du cancer

1. La **gouvernance** et l'organisation doivent être claire
2. Un réseau doit compter au moins **un CCC/CC**
3. Les **parcours - patients** doivent être clairement établis et engager tous les partenaires
4. Les principes et les structures des **EMD/RCP** doivent être partagés
5. Les collaborations stratégiques en matière de **recherche** doivent être clairement organisées et encouragées
6. Les **guides cliniques** doivent être communs
7. Il doit y avoir une approche cohérente de **l'enregistrement des données** relatives aux patients
8. Il doit y avoir une interopérabilité informatique et un **partage des données** pour les EMD/RCP et les soins primaires

## Revised European Quality Standards for Cancer Networks will be piloted at OncoZON

29 AUG 2022

The OEI A&D Board has approved the revised version (5.3) of the European Quality Standards for Cancer Networks. This revision is based on the experiences of the 1st pilot of the Network standards at the Association Toulousaine d'Oncologie Publique (ATOP) in Toulouse in April 2021.

The OncoZON (Oncology Network SouthEast Netherlands) Network, consisting of the Maastricht University Medical Centre (MUMC+), 8 other regional hospitals and a radiotherapy institute in Maastricht, has agreed to participate in the 2nd pilot for the OEI European Network Standards certification. The Network is currently in the self assessment phase, the peer review visit will take place in 2023. MUMC+ has been certified in the A&D Programme since March 2021 and is designated as an OEI Comprehensive Cancer Centre.

For more information, please see the attachment.

**OEI Accreditation and Designation Programme**  
European Quality Standards for Cancer Networks

**How to read the document:**

- Table 1 below shows the topics of all the standards in total.
- Table 2 (starting at page 4) shows all standards with the sub-questions
- Table 1: OEI A&D network standards:

Name of chapter	Topic of the standard	Number standard
1. Governance	Co-operation in the network – objectives and obligations	1
	Contractual agreement – geographical area and services provided	2
	Provision of diagnostic, treatment and aftercare services	3
	Promotion of diagnostics and treatment	4
	Communication facilities of the network	5
	OEI accredited Cancer Centre	6
	Agreement with universities or research institutes	7
	Agreement for undergraduate and postgraduate education	8
2. Organisation	Criteria to become Network Member	9
	Criteria to leave the Network – continuity of patient services	10
	Board of Directors	11
	Members of the Network	12
	Composition of the Board of the Network	13
	Role of the Network Board	14
	Network co-ordination team	15
	Strategy of the network	16
